Name of Process: Cisco Umbrella Web Filter

Description of Process: Cloud-based web filtering solution which operates at the Domain Name System (DNS) layer. The web filter is configured with a policy which prevents access to certain categories of website, as well as preventing the downloading of content from sites which are known to be dangerous.

Edinburgh Napier University provides this information to explain how we use your personal data. Protecting your personal data is important to us and we only collect and process data which is necessary for us to provide the information, services and goods you require. This is in compliance with UK data protection legislation (“the legislation”), that is, the UK Data Protection Act 2018 (“DPA 2018”) and the General Data Protection Regulation: EU 2016-679 (“GDPR”) as amended by “EU Exit” Regulations 2019 and now known as the UK GDPR.

Data Controller	Edinburgh Napier University
Purposes for collection/processing	<p>Information about your web browsing activity is collected and stored for a limited period of time so that it can be investigated by authorised individuals should there be a need to do so, for example during the course of investigating an information security incident or suspected breach of University policies. Further information can be found in the Monitoring and Logging Policy.</p> <p>Aggregated browsing data is also used in the production of reports for Information Services staff and University senior managers. These reports typically show the most frequently used web applications, the most popular categories of websites visited, etc.</p>
Legal basis	<p>Art 6(1)(f), legitimate interests, is the main basis for processing as it is in the legitimate interests of the Controller to protect its information systems from misuse. By ensuring that all web activity can be traced to an identifiable individual, any claims of misuse or inappropriate behaviour can be investigated.</p> <p>Art 6(1)(c), compliance with a legal obligation, is also used as the basis for processing, since the Controller may be subject to requests for data from authorities for which there is a legal requirement to provide any available information.</p>
